

CORRECTION

Correction to: Association Between Early Outpatient Visits and Readmissions After Ischemic Stroke

In the article by Terman et al, "Association Between Early Outpatient Visits and Readmissions After Ischemic Stroke," which appeared in the April 2018 issue of the journal (*Circ Cardiovasc Qual Outcomes*. 2018;11:e004024), a correction was needed.

Table 1 has been revised for clarity.

"Hospital stroke quality measures, n (%)" should read "Hospital stroke quality measures, mean (SD)".

Percent signs ("%") have been added to the data provided in the rows labeled "Antithrombotics by hospital day 2", "Discharged on statin", "Stroke education", and "Assessed for rehabilitation".

"Stroke volumet" should read "Stroke volumet, mean (SD)".

"Regional factors‡" should read "Regional factors‡, mean (SD)".

This correction has been made to the article, which is available at <http://circoutcomes.ahajournals.org/content/11/4/e004024>.
